Names related to "Carl Friedrich Gauss"

See incorrect results? Correction Mode is: **Off**

- Carl Friedrich Gauss — Gauss — Carl Friedrich
- Wilhelm Weber
- Disquisitiones Arithmeticae
- Bernhard Riemann
- Theorema Egregium
- Fermat
- Waldo Dunnington — Dunnington
- Legendre
- Friedrich Bessel
- Leonhard Euler — Euler
- Johanna Osthoff
- Gaussberg
- János Bolyai — Bolyai
- Wilhelm Jordan
- Caspar Wessel

"Leonhard Euler" is probably related to Carl Friedrich Gauss:

- W Srinivasa Ramanujan: "It was derived from a class of functions called a hypergeometric series which had first been researched by Leonhard Euler and **CarlFriedrichGauss** ."

- W Imaginary number: "However , imaginary numbers were discovered much earlier by Gerolamo Cardano in the 1500s but they were not widely accepted until the work of Leonhard Euler (1707-1783) and **CarlFriedrichGauss** (1777-1855) ."

- W Lists of mathematics topics: "List of topics named after **CarlFriedrichGauss**"
